## City of Langley

TIM CALLISON  
Mayor

Fax (360) 221-4265

### NOTICE

This is to notify property owners and residents that the deteriorated sidewalk on the south side of First Street between Park Avenue and Anthes Avenue is scheduled to be replaced on May 18 to May 22.

The plan is to remove the deteriorated four-foot-wide concrete sidewalk and replace it with a new five-foot-wide ADA compliant concrete sidewalk. In some areas the new sidewalk may have to be narrowed to not affect utility poles and the trees in the existing grassy area.

The existing grade of the sidewalk will be maintained as much as possible.

All construction will take place on City of Langley right of way. Some of the existing vegetation located in the right of way will be trimmed back.

There will be no parking on the south side of the street and pedestrians will be diverted to the sidewalk on the north side.

The contractor, Asphalt Patch Systems Inc will work 7:30am to 4:30pm each day.

The construction will begin at the Park Ave intersection and the driveway at McCleod Alley. The driveway will be closed all week in order to cure the concrete.

This project is completely funded with a Federal Aid Transportation Alternatives Program grant.

The City of Langley regrets the disruption and inconvenience this project will cause residents and visitors, but the resulting infrastructure improvement will be substantial, safer and long lasting.

Please call the City of Langley Public Works Department at 360-221-4209 if you have questions or need any additional information.
