Clinton Gateway Added To

County's Comprehensive Plan

Island County

Planning for the future of Camano & Whidbey Islands

December 21, 2020

Adoption of Ord. C-106-20 - The Clinton Gateway

On Tuesday, December 15th the Board adopted Ordinance C-106-20 In the Matter of Adopting Section 2A, the Clinton Gateway, as a Subsection of the Economic Development Element of the Island County Comprehensive Plan.

On November 5, 2020 the Board placed an update to the Economic Development Element on the 2020 Annual Review Docket. A portion of this project included an analysis of each of the County's seven gateways. Due to the staffing and resource needs posed by the public health and economic recovery response to Covid-19, this docket item was reprioritized. An analysis of the Clinton Gateway was determined to be the priority for 2020, with the remainder of the Element and gateways to be addressed through future dockets.

The Clinton Gateway Analysis provides a market-driven analysis of growth and development opportunities in Clinton. It serves to recognize that as one of the main points-of-entry to Island County, the economic conditions in the Clinton Gateway are crucial to economic health and vitality of the County as a whole.

The signed and adopted ordinance establishing Section 2A The Clinton Gateway, can be found here:
