Courtney Cooke from Clinton

From Carl Andersen to Everyone: 05:14 PM

Hi, I am Carl Andersen from Freeland.

From Detmar Straub to All Panelists: 05:17 PM

Hi, I am Detmar Straub from Clinton.

From Me to All Panelists: 05:23 PM

Welcome to the February 16, 2021, - City of Langley Council Meeting

We will open the meeting for public comments after commissions and Board Reports and Presentations.

For those who just joined and who would like to announce/share your attendance please put your name and location in the chat. Be sure to change the drop-down option to "All panelists and attendees".

From Etta Pinkens to All Panelists: 05:27 PM

Hello all, it is Etta Pinkens, Clinton res.

From Lenore Norrgard to Everyone: 05:46 PM

Aren't these a different kind of smart meter?

From Rachel Goette to All Panelists: 05:46 PM

Rachel Goette, Langley

From Mark Wahl to All Panelists: 05:47 PM

Haven't had smart meters yet on the island.

From NatureMoves to Everyone: 05:47 PM

That's not how I understand the smart meter issue. It's not just to replace current ones...it's to bring them into all homes, right?

From Rachel Goette to All Panelists: 05:47 PM

Seems like it may be perhaps a newer technology than those the town has had since 20 years?

From Thomas Gill - Council 3 to Mark Wahl, All Panelists: 05:47 PM

Mark, you currently have a smart meter in your home.

From NatureMoves to Everyone: 05:47 PM

I came this evening to speak about that. Thanks Peter.

From Lenore Norrgard to Everyone: 05:47 PM

It's also a different kind of meter than currently exists

From Mark Wahl to All Panelists: 05:48 PM

Not true. It is an analog with a joined CellNe module that reads the analog meter and sends a signal once a day to the cell tower.

Thank you and Good Night

Darlene Baldwin

Assistant Clerk

City of Langley
