## City Council Teleconferencing Access

This is an update on how we are moving forward to be able to still hold our legally required City Council meetings while abiding by the Governor's quarantine orders while being in compliance with the Open Public Meeting laws:

- We have adopted Zoom as our teleconferencing tool to broadcast our meetings
- We have reconfigured our Council chambers to provide for our new meeting format
- We have invested in equipment to allow this activity
- We have trained the City staff and the Council in the use of this tool
- We have provided instructions to you on how to use the tool (last email)
- We are ready to try this for the first time Monday night.

We hope you can join us at:

Please click the link below to join the webinar:

International numbers available: <https://zoom.us/j/9171111111>

**We will still be taking meeting minutes that will be posted.**

**We will still be making a digital recording of the audio that will be posted**

**We will still be live streaming the audio on AM 1610**

**We will be recording the Zoom meeting and posting the audio - video too once we figure out the storage space requirements.**

As we become more confident in our ability to conduct meetings on this platform we will evaluate the other streaming services to broaden citizen access to our meetings.

Baby steps first
