Aug 15, 2018

The City of Langley is looking for volunteers to serve on the newly revised ad hoc Tourism Funding Committee.

The Committee applies the funding criteria that have been approved by the City Council to make budget recommendation to the Council.

An intense term of service is the three-week period leading up to the Budget discussion process – in October of 2018 followed by an April review period. In the following years, the review period will be in September. Occasionally you will be called upon if there are special limited funding reviews required during the year. The committee is also expected to review standing contracts with WICA, the Chamber and the county as they expire.

We are looking for 3-5 citizens to work on this committee. Volunteers should be residents in the greater Langley with a 98260 zip code. Experience in the tourism industry would be a great plus but is not a requirement. However, no Board Member of an organization that will be requesting tourism funding may sit on the Committee.

Those that are interested in serving should fill out a Langley Volunteer Application form and submit it to me. Applications are due by September 1, 2018
